## FARM LABOR, MACHINE SHOP POOL C. OF C. HIGHLIGHTS

Resolution Would Intern All Japanese And  
Enemy Aliens; Retailers Draft Program;  
24 New Membership Applications Approved

The membership of the chamber of commerce, seeking to develop a service program intended to assist and strengthen the El Dorado County war economy, advanced a number of proposals in the form of resolutions at its February meeting Thursday evening at Raffles Hotel.

Other matters which may prove important, such as the suggested pooling of machine shop facilities to undertake war production, were shown to be active by the various reports

## BEHIND The scenes in BUSINESS BY JOHN CRADDOCK

**SWINGOVER** — Latest word on the conversion of industry from peacetime to war production brings home forcibly the extent of the changeover. Under tentative plans of the new War Production Board, industrial facilities which in 1941 turned out \$20,000,000,000 (billions) worth of durable and semi-durable consumer goods for civilians will be wholly or partially converted to war goods making. That means military output will account for more than half — actually 53 per cent — of the nation's total industrial production in 1942! The degree of step-up is more apparent when you note that even with the "big swing" of 1941, the percentage of military goods that year was only 21. And total production for 1942 is expected to run about one-sixth greater than for last year, which itself set an all-time record.

**WASHINGTON** — New Labor Department figures show that average weekly earnings for workers in all manufacturing industries increased 33.9 per cent from war's outbreak, August of 1939, to last mid-November, while retail food prices went up 21 per cent in the same period. The new wave of wage-increase demands is seen here as threatening an extension of price "freezing" to wide ranges of the retail field — thus far applied to manufactures and wholesalers only. In order to forestall the new wage demands, which are based on probability of more living-cost rises, the OPA may have to hurry up with definite assurances that living costs will be stabilized. That would require a "quick freezing" job on retail prices of three great essentials: food, clothing and housing.

**BITTS O'BUSINESS** — Not only are auto plants doing a rapid conversion job individually, but they're "pooling" and swapping machines and facilities so that the whole industry is fast turning into one gigantic arms-production plant. For example, Packard's famous proving ground is now taking a pounding from tanks and trucks built by Chrysler, for Packard isn't building rolling stock any more but concentrating on Rolls-Royce airplane engines. — Westinghouse Electric will put aside one per cent of its payroll each month into a special fund to be used to cushion the effect of post-war employment on its folks. On January 31 total "money in circulation" in U. S. hit a new all-time peak of \$110,000,000,000; a year ago it was \$85,000,000,000. The shopping spree that broke all records for January is slowing down somewhat, thanks to the sobering effect of the approach of income tax-paying time, plus the growing effectiveness of the Defense Bonds drive.

**SCRAP, OR ELSE** — With one exception, everything that can be done is being done in conserving and making full use of all available sources of rubber. Plans for an annual output of 400,000 tons of synthetic rubber are being rushed. Tires are rationed, and manufacture of recap material restricted. Congress has okayed planting of guayule, and Latin America is being scoured for every pound of crude. The one step yet untaken is an "all-out" effort to collect scrap rubber. The importance of getting busy on this was highlighted by James J. Newman, vice-president of the B.F. Goodrich company, who told some 500 New England business leaders the other day that enough scrap is available — if it were only rounded up — to get somewhere between 450,000 and 500,000 tons of reclaim per year (against the 285,000 tons produced in 1941), beginning in 1943 when enlarged facilities could be brought in. He said civilian needs may depend almost exclusively on reclaim, hence an all-out and continual rubber scrap collection program is a "government must."

**UP A BILLION** — Secretary of Agriculture Wickard gave a warning about how price-guaranteeing legislation for feed grains would boost food costs to consumers. Proposed legislation that would prohibit selling feed grains below par-

(Continued on Page Three)

## Maj. Kelly Heads "Guayule" Farm

El Dorado County residents who have been discussing rubber substitutes in a vague sort of way may feel a little closer to the subject following the announcement that Major Evan Kelly is in charge of administration at the federally owned guayule farm, in Salinas Valley.

Major Kelly has accepted that assignment following several years as Regional Forester at Missoula, Montana.

And, by the way, did you pronounce "Missoula" with the accent on the "you" like "Missoula"?

Well, that's the way you pronounce "guayule," with the accent on the "u" like it was "oo", and then pronounce the "le" like it was "ley."

Major Kelly formerly was Supervisor on Eldorado Forest.

It is understood his work at Salinas will be in the field of organization and administration on a plantation said to embrace a total of about 35,000 acres.

## SMITHY'S SHOP BURGLARIZED

Weekend Thief Shows  
Preference For Tools  
In Metal Working

Sometime between Saturday noon and Monday morning, Thomas Ward's blacksmith shop on Benham Street was entered by a thief or thieves and tools were stolen which represent a value of between \$250 and \$300 if they can be replaced.

Entry was gained through a rear window of the shop and on pieces of the window the sheriff's office found several finger prints which, it is hoped, may prove of some use in solving the burglary.

Although a variety of wood-working tools was in the shop, the burglar indicated a preference for tools used in metal working taking several drills, dies and other equipment.

A complete list of the tools missing has been supplied to officers.

Mr. Ward closed the shop at noon on Saturday and discovered the burglary when he opened for business Monday morning shortly after eight o'clock.

Officers reported that there is some doubt, owing to war restrictions, that it will be possible to replace some of the tools which were stolen.

The nature of the stolen loot appears to suggest that it was hauled away in a car.

The circumstance that the tools were taken were for use in working with metal may appear to some to link the burglary in a rather vague sort of way with the defense program. In this connection, it is suggested that the owners of similar items whose replacement is on a priority basis, or the owners of automobiles tires, for instance, may do well henceforth to take special precautions for safeguarding such materials.

It is common gossip that as we get further along in the tire rationing program and tires in use become worn out, the hazard of tire thefts, both from cars and from sales depots, will be greatly increased.

## PLACERVILLE DENTIST IS NAMED CAPTAIN IN ARMY

Dr. William B. Schneider, Placerville dentist who was called to Army service nearly a year ago, has been advanced in rating from a Lieutenant to a Captain in the Army Medical Corps.

The captain is stationed at the general hospital at Camp Hoff, near Santa Barbara.

Dr. Schneider was a lieutenant in the Army Medical Corps Reserve at the onset of the emergency period and was thus "in line" for advancement upon the completion of a required period of field duty, which has now been completed.

## DR. DAN BABCOCK MADE CAPTAIN IN ARMY MEDICAL CORPS

Dr. Dan W. Babcock, Placerville physician who was called to Army service more than a year ago, has been advanced in rating in the Army Medical Corps and is now a captain.

Captain Babcock was a member of the Army Medical Corps reserve at the onset of the emergency period, holding the office of lieutenant. As such he was eligible for advancement to become a captain upon the completion of a specified period of field work.

Stationed for a year or more at Camp Haan, near Riverside, the captain has recently been transferred to Fort Douglas, Utah.

## W. H. ALBRIGHT IS STRICKEN

Services On Tuesday For  
Water District Employee  
Who Died Early Saturday

William Henry Albright, 76, native of Coon Hollow and a life-long resident of El Dorado County who for thirty-eight years had been employed in irrigation and water service work, died Saturday morning during a heart attack.

The funeral services will be held on Tuesday afternoon at 2 o'clock at Memory Chapel, Rev. J. R. Rudkin officiating. The services will be under the auspices of Placerville Parlor No. 9, N. S. G. W. International will be at Union cemetery.

Mr. Albright had been troubled with his heart some time previously, but there had been no intimation recently that his condition was any less satisfactory than it had been during recent months. On leaving his home on Bedford Avenue for El Dorado Irrigation District's offices Saturday morning to start work, he had found it necessary to change a tire on his car before leaving. Then he drove to the water district office, parked the machine, got out and started to walk away from it when he staggered and fell.

Workmen and other friends attempted to revive him by artificial respiration and a physician was called. Mr. Albright was pronounced dead.

Deceased was a native of the Coon Hollow section of this county and a son of the late Charles and Bertha Albright, who were pioneers of the 1850s in this county. During early life Mr. Albright had engaged in ranching in Coon Hollow and also had been engaged in mining.

For thirty-eight years he had been connected with the water service and irrigation company in the Placerville area, serving for many years as a ditch-tender and in more recent years being the water superintendent for the company.

Mr. Albright was a member of Placerville Parlor No. 9, N. S. G. W., and of Morning Star Lodge No. 20, I. O. O. F. of this city.

He is survived by his wife, Mrs. Laura Albright, of this city; one daughter, Mrs. Maybelle Burke, and one grandson, Tommy Burke, of Berkeley, and one sister, Mrs. Nellie March of Elmyra.

Ed. Shepard, of Placerville, and George Shepard, of Sutter Creek, are cousins, and several nieces and nephews also survive.

## Council Race Is Simmering

Matthew Blair Petition  
Taken For Signatures;  
Molinari May Be Candidate

With less than three weeks remaining before the expiration of the time for filing city election nominating petitions, on March 14, some activity is being shown in behalf of city council candidacies.

Two positions on the council are to be filled in the election this year, and the city clerk, elected two years ago, has served half his term.

The first candidate to get his "hat in the ring" is Matthew Blair, a former member of the council.

A nominating petition in his behalf was taken out Friday by Police Judge E. E. Creed. Otherwise in the race there is nothing but silence, save and except an intimation by Mayor Charles Molinari that he is considering the possibility of becoming a candidate for re-election.

The Mayor's term, with that of Councilman Albert H. Greeley, expires this year.

Hold-over members of the council are Joseph C. Beach, Philip Frost and Howard Lewis. The election will be held on April 14.

## Bill Dillinger Advances On Stanford Daily Staff

Bill Dillinger, son of Mr. and Mrs. H. E. Dillinger, of Placerville, has been advanced on the staff of the Stanford Daily, at Stanford University, where he is a student.

Bill started in last fall as a reporter and has now been advanced to the copy desk and is also of dramatic, which indicates that the Stanford Daily recognizes Bill's apparent talent in newspaper work.

Mr. and Mrs. Clarence Clifton and Miss Eleanor Tagmeier were here from Vallejo for the weekend, returning Monday.

## MIXED DOUBLES BOWLING LEAD CHANGES IN WEEKEND

Mr. and Mrs. ePte Garrick, who for ten days past had held the lead in the mixed doubles bowling tournament at the Pear Bowl, were displaced during the weekend by Miss Adele Landis and Tom McGrath.

The new leaders set a total of 1242 total pins, which was well in advance of the 1209 total set by Mr. and Mrs. Garrick.

## Schools, State And County Offices And Shops Close On Washington's Birthday

Schools, state, county and city offices and many business places in the county seat were closed on Monday in observance of the anniversary of the birth of George Washington, on February 22, 1732.

Food stores in the county seat, and other principal places of business, were closed voluntarily and also in compliance with the city ordinance designating Washington's Birthday as one of several holidays in the year on which all stores will close.

Federal offices were, generally open. The service windows at the postoffice were closed. There was one mail delivery during the day.

Boxholders received their mail as usual.

The office of the Farm Advisor,

the Agricultural Conservation Association and the Forest Service observed the day as a regular working day.

On Friday in many of the schools of the county, the pupils presented programs commemorating the anniversary of the birth of the First President.

The Sunday and Monday holiday resulted in an unusual number of cars passing through the county seat from valley points enroute to the snow sports areas. Observers pointed out that although the traffic was heavy under the present conditions, it did not approach the amount of travel which would be expected on a similar weekend when motorists might be free of the current tire and car rationing restrictions.

## 17 REPORT ON MINERALS

Survey of Strategic  
Ores Shown In Facts  
Given Supervisors

Seventeen reports were received on Friday by the Board of Supervisors, listing properties in the county which, in the belief of their owners or holders, contain minerals which may be helpful in the war program.

The local survey was a part of a state-wide check-up in which the owners of mineral properties were asked to obtain questionnaires from their County Supervisors, and list their properties.

The following properties reported:

Lyman A. Bender, 40 acres of chrome and serpentine property in the Second Supervisorial District;

R. H. Chaix, George Gardner and Frank Lasswell, two chrome claims in the Third Supervisorial District;

Mrs. E. Chaix, three patented chrome claims in the Third Supervisorial District;

Martinez Gold Mines, 233 acres containing manganese ore, in the Third Supervisorial District;

D. Davis, 280 acres patented containing manganese ore in the Fifth Supervisorial District;

C. S. Tillman, of Folsom, reporting a claim of aluminum ore in the Second Supervisorial District;

Gertrude Huddy, two claims containing gold, black sand and mica, in the Second Supervisorial District;

Mrs. A. G. Springer, chrome property in the Second Supervisorial District;

Warren Russell, three claims containing chrome, white quartz and gravel, in the Fourth and Fifth Supervisorial Districts;

The Green Estate, by Mrs. Ruby Bryan, nine claims of chrome ore in the Fifth Supervisorial District;

E. J. McKenney, one and one-half claims of chrome ore in the Fourth Supervisorial District;

J. C. Forni, one claim containing some tungsten, in the Third Supervisorial District;

Charles Immer, one claim containing chrome, in the Third Supervisorial District;

N. E. Hill, two claims containing gold, feldspar, limestone and chrome, in the Second Supervisorial District;

Frank MacDonald, two claims containing chrome, in the Fourth Supervisorial District;

G. C. Celio & Sons, land containing quartz with cinnabar, quartz with gold, amphibole asbestos and mineral water, in the Third Supervisorial District; and

Philip Mocetini, two claims containing chrome, manganese, feldspar, limonite and hornblende, in the Third Supervisorial District.

## THREE-YEAR-OLD WANDERS FROM HOME SATURDAY, LOST TWO HOURS

Bobby Hale, who is only a few months past his third birthday, wandered away from the home of his grandmother, Mrs. Park Stark, on Gilmore street, Saturday morning and was located after an absence of more than two hours during which county and city officers joined in the search. A volunteer group of 25 high school students was on hand to join the posse as the lad was found.

Just what route Bobby took probably will not become known, but he wandered onto the C. E. Cribbs place and after a careful scrutiny, Mr. Cribbs decided he was a little young for pear picking.

But Bobby was taken in tow and by way of attempting to learn where he had come from, Mr. Cribbs called the T. A. Batelle home and Mrs. William Liddicoet had heard of a search for a missing child being in progress.

And so, within a few minutes, Mrs. Liddicoet found some of the members of the posse and Bobby was taken in charge by District Attorney Henry Lyon and returned to his grandmother.

Bobby's daddy is employed in defense work in Hawaii.

## J. G. EDDY PAYS COUNTY VISIT

Institute Founder Says  
Results Confirm His  
Judgment In Project

The work of the Institute of Forest Genetics has confirmed the judgment of James G. Eddy that such an institution would be worth while to the lumbering industry and to forestry in general.

This was the report the Seattle lumber man who founded the institute gave to friends last Friday and Saturday in the course of a visit to Placerville and to the institute.

Of course, Mr. Eddy believed in the possibilities of the station from the beginning, but the results of the work which are now apparent have served to confirm his judgment.

The Institute of Forest Genetics was established by Mr. Eddy in 1925 under the name of the Eddy Tree Breeding Station. Its purpose was to seek to develop a rapid growing forest tree which would be marketable in from twenty-five to thirty years; stepping up the pace of Nature almost a quarter century.

Mr. Eddy supported the institute financially and contributed to its work and to directing the course of its research. He gave the institute the benefit of his experience in lumbering and in forestry.

In 1932 the name of the station was changed to the "Institute of Forest Genetics" as it is now known, and subsequently the unit was taken over by the federal government as a branch of the California Forest and Range Experiment Station, which has headquarters at Berkeley.

Through the years, under the guidance of members of the original staff and later under other officers, the work of the institute has been carried on and the plant has been expanded and developed.

Mr. Eddy's interest in the project has been sustained through the years and he has visited Placerville and the institute once or twice each year, keeping in touch with the progress of the work.

But his recent visit was unusual in that, for the first time, Mr. Eddy told friends that the work of the institute has progressed to a point where he feels that his judgment in establishing the station in 1925, is now confirmed.

## DONOVAN HELD FOR TRIAL, MAY PLEAD GUILTY TO GRAND THEFT

James Donovan, whose true name is reported to be O'Carroll, was bound over for trial in the Superior Court on grand theft charges at a preliminary hearing held Friday before Justice of the Peace T. F. Lewis.

Officers reported that Donovan indicated he will be likely to plead guilty at his Superior Court arraignment, tentatively set for Tuesday.

The charges against Donovan result from his alleged association with Worley MacMurray and Ray Vincent in a series of robberies on the south side of the county on or about last July 4. Donovan, sought since that time, was arrested last week at Burlingame.

## Officer Lester Buck Joins Road Patrol

Officer Lester Buck, formerly stationed at King City with the Highway Patrol, has been transferred to El Dorado County and has begun his duties with the local patrol. He is accompanied by Mrs. Buck and their small son and the family will make their home in Placerville.

## Air Raid Wardens Meet On Thursday Night

Russell Anderson, city works superintendent, reports that a meeting of air raid wardens of the community will be held Thursday evening, February 26th, at the Superior Court room in the courthouse. It is desired that there be the fullest possible attendance.

## COUGARS SPLIT AT TUOLUMNE

One Here Friday For  
Three Games; Bees Lose  
As A Team Wins, 19-18

The Cougars sent an "expeditionary force" into the trees of Tuolumne, twelve miles east of Sonora, Friday night and the two teams returned with a victory and a defeat.

The Bees dropped their contest, 22 to 16, and the A team came out on top, 19 to 18.

This coming Friday night the ABC Cougars, round out their Mother Lode League schedule in a session with the three lone high school teams, in the local gymnasium.

Coach L. A. Brown and J. B. Lehan launched their attack on Tuolumne at ten-thirty Friday morning and in a sustained dash reached Sonora for dinner at 4:30 Friday afternoon.

The advance was then resumed and the Cougars contacted the enemy shortly after seven o'clock on the Tuolumne gymnasium floor and the first quarter ended 6 to 6.

At the end of the half it was ten to ten and when the three-quarter march was reached, the count was 13 to 11 for Tuolumne and the home team added nine in the last period to five for the Cougars.

Hutchinson led the Cougars with six, Davis and Ball snared three each and Grieve and Drennan had two apiece. Bettanini sunk ten to lead Tuolumne in giving the Cougars their first defeat of the league schedule.

Tuolumne is undefeated and plays Sutter Creek this week and so it appears that the Cougars may get second place in the race, if they can win their game with Tione.

The Cougar A team was behind, 6 to 2 at the end of the first period and trailed 9 to 4 at half way. Since sump'n had to be done, the Cougars did it, and the third quarter score was a tie at thirteen and the finale read 19 to 18 for the Cougars.

Land led the Cougars with ten, Emmerson got six, Young 2, Cribbs 1 and Weidman failed to tally, being kept busy otherwise.

Following the battle, the Cougars fell back to previously prepared positions and it was after two o'clock Saturday morning when they reached Placerville.

## Cub Pack Awards 13 Advancement

Achievement Council  
Held Friday Night At  
Junior Community Hall

Fifty-eight relatives and other friends of the members of the Placerville Cub Pack of Boy Scouts were in attendance at the Junior Community hall Friday night when thirteen members of the Cub Pack were honored with advancement in ratings at an Achievement Council. The following awards were presented:

Wolf, Roy Walden and Allen Dunn;

Bear, Sammy Kyburz, Kent Gish, Charles Wilson, David Johnson,

Bear with gold arrow point, Homer Osborne;

Silver Arrow point, Homer Osborne;

Lion, Homer Osborne, David Johnson and Frank Kessler.

A ten-piece band from the Cub Pack assisted in the ceremony by playing "America."

## OMO RANCH MAN PLEADS NOT GUILTY; HEARING SET FOR TUESDAY

Charged with rape, Leonard F. Brown entered a plea that he is not guilty when arraigned Friday morning in Superior Court, and the case will be heard Tuesday morning before Judge George H. Thompson. There will be no jury.

Brown was arrested on the complaint of the parents of a ten-year-old girl. One other man was taken into custody in connection with the case and was subsequently released.

The defendant is being represented by Attorney T. S. Marlor, who was appointed by the court.

## INCOME TAX DEPUTY WILL BE AT HIS OFFICE MAR. 2 TO 7

If you are like the majority of others and have not attended to making out your income tax return, your attention is directed to the last date for filing the return, March 15.

In case you require assistance, W. D. Malloy, deputy internal revenue collector, will be at his office in the basement of the postoffice beginning March 2 and through March 7. Those who require his help or advice will do well to call upon him during that period as he has no plans for extending his stay in his local office, since his duties call him afield.

## THE PLACERVILLE REPUBLICAN

C. E. BARKER, Lessee-Publisher VERNON E. ALLEN, Editor  
Published Every Tuesday at Placerville, California  
Entered as second-class matter at the Post Office, at Placerville, Calif.,  
under Act of Congress, March 3, 1879  
Subscription price, one year \$1.00, in advance.  
All subscriptions are continued until orders are received direct at this  
office to stop delivery. Arrearages must be paid in every case.

## Ask For Credentials

J. Edgar Hoover, Director of the Federal Bureau of Investigation, has cautioned that all parties approached by any individual claiming to be a Special Agent of the Federal Bureau of Investigation should insist upon the presentation of the official credential card of the FBI. There have been a number of instances wherein persons have misrepresented themselves as Special Agents of the Federal Bureau of Investigation and thereby have secured information, privileges, and prestige which would not ordinarily be accorded them by citizens and business concerns.

Failure of persons contacted by impersonators to be alert not only causes embarrassment to the victims and the Federal Bureau of Investigation but frequently imperils the war efforts of our country.

The official credential card of the Federal Bureau of Investigation contains the photograph and signature of the Special Agent, properly authenticated by the signatures of the Attorney General of the United States and the Director of the Federal Bureau of Investigation. The card also contains an imprint of the seal of the United States Department of Justice and is so designed to make alteration or forgery practically impossible.

Particularly at this time, in view of the many investigations pertaining to matters of vital importance of the internal security of the Nation, it is imperative that persons contacted by individuals claiming to be representatives of the FBI be certain of their identity, and this can be done only by insisting upon the presentation of the proper credentials which all Special Agents of the FBI are directed to carry with them and display to any person from whom they may request information.

## Started Something

The El Dorado County Chamber of Commerce has "started something" and we believe that the sub-section organizations which met in panel discussions in connection with the February meeting of the chamber last Thursday night, should be continued throughout the year.

Of course, this isn't the age of miracles; and it is therefore unreasonable to expect that any sensational developments will result from the program which these groups are formulating.

But if the action results in some improvement, and it seems reasonable to hope that it might, then that is something.

Too often a new broom sweeps clean; and by the time its edges have become a little worn it doesn't do quite the job that it was expected to do when it was new.

There is a point there in our suggestion that the panel groups should be continued: They will help to keep before the general membership throughout the entire year some of the proposals which were developed, and which received general endorsement, at the February meeting.

## Save Old Paper

The "Save Old Paper" movement in El Dorado County has been a little confused for several weeks and we can report that steps are being taken through the Council of Defense to attempt to clarify the situation.

Meanwhile, we would suggest that those who have an accumulation of old paper may best serve the national interest in this regard if they adopt the "stand pat" attitude.

Despite impatience on the part of householders who have entered enthusiastically into the paper conservation campaign and then find they have a quantity of paper on hand which nobody seems to want, it is to be hoped that none of the paper which has been saved will be destroyed until there is some authoritative and official statement which warrants such a step.

We are advised that the Council of Defense is making an effort to obtain some definite word concerning what type of paper is wanted, and other information on the subject that may help to move the paper to some point where it may be put to use.

Meanwhile, if we can arrange in any way to hold on to the waste paper we have accumulated in support of the campaign, perhaps we shall find out within a short time what we can do with it.

Pending further word, it is to be hoped that, however impatient some may be, none will deliberately destroy the paper so long as there is the remotest chance that it may be salvaged in support of the war effort.

"A friend is a person who lets you alone a good deal, perhaps, when things are going well with you; but once you get into trouble, he is at your side, . . . and he believes in you through thick and thin."—Dr. Riley D. Moore.

## AT THE TOP OF THE LIST

## GRANDSON OF LATROBE RESIDENT, EVACUATED FROM HOME AT HONOLULU, ATTENDS SCHOOL AT SACRAMENTO

Since he enrolled in the fifth grade, Raymond Clarke, 10, an evacuee from Pearl Harbor, has become the idol of every pupil in the Arden School says a Sacramento paper.

Raymond is a grandson of Mrs. Josephine Swift, of Latrobe.

The Sacramento report continues: From the living room window of his island home overlooking the great naval base he saw the Japanese sneak attack. He saw bombs bursting, the antiaircraft fire, planes shot down and he saw death. Students and teachers alike corner him in the halls of the little school to fire questions at him. Pleasantly and with an unusual gift of eloquence for a 10 year old, he answers.

The scrapbook of pictures he took with his little box camera are thumbmarked and almost everyone has asked to see his souvenirs among which are part of the rising sun insignia from a Japanese plane which was shot down.

"I never dreamed I could get through the customs officers with this scrapbook," he said. "They just looked at it, asked some questions and gave it back."

With a faraway look in his blue eyes the youth recounted that fateful morning of December 7, 1941. "I was awakened by the sound of bombs and guns. Then my mother and father came running down our hallway, yelling that Pearl Harbor was being bombed. I jumped out of bed and ran to the living room

plate glass window and right there before me I saw Japanese planes dropping bombs. "Already one battleship was turned on its side. It was the U. S. S. Arizona. "Say, I'm not supposed to give away military information," he ended abruptly. He continued: "Three ridges over from our house (approximately one mile in the hills above the harbor) a Japanese plane dashed crazily to earth. When my brothers and I got there we saw the pilot in the cockpit, crushed and all to pieces. Antiaircraft guns had made a direct hit on his tail."

The youth arrived in Sacramento recently to live with his cousins, Mr. and Mrs. Charles H. Davies, Jr., of Route 5, Box 986, in Arden. He sailed from Honolulu Harbor aboard a crowded transport.

Asked if he was homesick, the young native of Honolulu answered: "No, not yet, but maybe I will be. I sure miss my dog and my swimming pool. You see we have a big concrete swimming pool in our back yard. Oh, gosh yes, I miss my daddy and mother, too. I've written them three letters already."

Clarke is the son of Chester Raymond and Lucetta Swift Clarke of Honolulu. Both were born in California and moved to Hawaii after their marriage. The father owns and operates a large rock crushing plant in the suburbs of Honolulu. The youth's two older brothers, Chester Robert, 15, and Allen Swift Clarke, 14, are to come to California soon.

## Local Happenings

Mrs. J. A. Bell was among callers in the county seat from Pollock Pines on Saturday.

Forest Supervisor and Mrs. Edwin P. Smith spent the weekend visiting Mrs. Smith's parents, Mr. and Mrs. Harry Oliver, at Truckee.

Calvin and Don Wright were home for the weekend from their studies at San Jose State College.

Bill Dillinger was home from Stanford University for the Washington's Birthday weekend.

Bob Bergantz was up from Sacramento for Saturday and Sunday.

Mr. and Mrs. Elmer Swansborough and son were among the Monday visitors from Sacramento.

Arthur B. Smith, of Placerville, is reported to have been arrested Saturday at Sacramento on a charge of driving while drunk.

Mrs. Louis Veerkamp was among those in town Saturday from Gold Hill.

## GRANGE NOTES

## Hangtown

At their regular meeting Friday, February 20, Hangtown Grange decided to hold one meeting a month instead of two, due to rubber shortage and smaller attendance at meeting. This one meeting a month will be held on the first Friday of each month.

It was announced that the next card party would be held on Thursday, February 26.

The two \$100 defense bonds were reported purchased.

A Past-Master's Pin was presented to Agnes Blair, master of 1941.

Inez Bongetta, secretary.

## Pollock Pines Driver Held On 3 Charges

Arthur R. Sprague, 44, of Pollock Pines, was booked at the county jail during the weekend on three charges of breaking the state traffic laws.

He was cited by the highway patrol for driving on the wrong side of the white line, and the two other charges were sections 510 and 511, said to relate to speed.

## Red Cross Will Assist In Locating Persons Held In Enemy Territory

El Dorado County Red Cross chapter announced Monday that a supply of blanks is expected this week for use of residents of the county who may wish to make inquiry concerning relatives who are held in enemy territory.

Anyone who has relatives who may have been residents of countries since occupied by the enemy, or who were captured as prisoners of war is welcome to attempt to communicate with

them through the Red Cross.

The exchange of information is carried on through the headquarters of the International Red Cross at Geneva, Switzerland, and there is no charge for the service.

All messages must be filed on forms which may be obtained from the Red Cross chapter and messages will be limited to twenty-five words. El Dorado County residents should file their messages with El Dorado County Chapter of the Red Cross.

## CANNING BARTLETT GROWERS MEET ON MARCH 2 AT NEWCASTLE

The business of nominating members to the Canning Bartlett Growers committee will come before a meeting of growers at Newcastle on Monday evening, March 2. The Newcastle meeting will attract representatives from El Dorado County and ten other counties from Tuolumne County north along the eastern border of the state.

Mr. and Mrs. O. I. Lewis were here from Auburn to spend the Washington's Birthday weekend with Mr. and Mrs. J. G. Leonardi and family.

County Clerk Arthur J. Kozlitzke goes to Richardson Springs on Tuesday to attend the annual meeting of California County Auditors and Tax Collectors.

The Ven. and Mrs. Rex A. Barron were here Sunday from Sacramento, visiting Mr. and Mrs. J. G. Leonardi and other friends.

## Stanley Reckers Has Three Witnesses For Hole In One

Stanley Reckers, son of Dr. and Mrs. W. A. Reckers, of Placerville, made a hole in one while golfing at the Sacramento municipal course on Friday and, by golly, he can prove it.

Some may think that Sacramento is rather bad off when it can't trust its lawyers in their claims to holes in one, but apparently that is the case, for The Bee, in reporting the incident, mentions Ben Rice, Andy Rice and Richard Lawrence as "witnessing" the incident. It does not report whether the witnesses were under oath.

But that doesn't make any difference to El Dorado County friends of Lawyer Reckers; they'll take his word for it.

Stanley used a No. 7 iron on the par three 125-yard ninth hole to get into the select circle.

E. Lamar Smith, former Placerville grocer and for many years a ranger at Yosemite National Park, from which he has recently retired, was in Placerville during the weekend visiting A. S. Fox and other old-time friends.

18 MONTH TERMS  
DEPENDABLE SERVICE  
LOW RATES

Save on  
the Homefront!

EQUIP YOUR KITCHEN  
WITH A MODERN  
ELECTRIC RANGE AND  
WATER HEATER

ELECTRICITY that lights your lamps, toasts bread, brews coffee and carries on many household chores continues to be the dependable servant of California homes. For cooking and water heating it is the same dependable source of heat and power to do work at low cost. ★ Food has won many wars and it will win this war. Is your kitchen prepared to help? ★ Consider electric cooking. First of all consider its efficiency in cooking food to save vital vitamins in vegetables and its all-round ease of heat control for perfect baking and meat-saving roasting. Then consider its low cost when 60,000 California housewives cook for an average of \$2.33 a month. ★ It is wise to plan ahead and have efficient and economical electric water heating. Electric water heating is the economy companion to electric cooking because electric water heaters operate on the very lowest rate block. ★ Your home now is dependably served by electricity and rates are low. Save money now and through years ahead—cook electrically, heat water electrically.

## Curb On Import Shown In Talk

Farm Advisor Reviews Some Of War's Affect On Consumer Goods

An explanation of some of the shortages in consumer goods was given before the Kelsey Farm Center on Friday evening by Farm Advisor Ivan Lilley.

Mr. Lilley supplemented this phase of the talk with a reference to the need for conservation in the use of various items and a consideration of substitutes which are being made available.

The speaker mentioned burlap, chromeite, copra, hemp, manganese ore, rubber, silk, sugar, tea and tin as among some of the products which the United States has imported in the past, and pointed out the various ways in which these products are being restricted for civilian use at this time.

Not all the shortage for civilian use is due to curtailment of shipping because of the war, he indicated, and some of it results from the circumstance that military preference is being given to the use of some of the stocks on hand.

Various substitute materials are being developed and some are already being made available.

## BEHIND THE SCENES IN BUSINESS

(Continued from Page One)

ity he said, would add a billion dollars to the nation's grocery bill. That figure is to approximately \$7.70 for every man, woman and child in the nation.

**IDEAS FROM WORKERS** — To turn out the greatest possible amount of war material in the shortest possible time is the job U. S. industry has tackled. So production engineers are fine-tuning combining operating procedures at hundreds of plants, cutting every possible corner so long as it works no hardship on personnel or on quality of product.

At Cincinnati, H. C. Phillips, personnel director for Schenley Distillers corporation, suggested that workmen themselves give their ideas for upping efficiency. At one of his firm's plants making alcohol for smokeless powder, "departmental forums" in which 1,000 unionized employees take part have resulted in many workable suggestions, he said, and the plan is being expanded to all other plants. "Labor," he pointed out, "has a great deal to offer along this line because of its familiarity with production work, and the more ideas can procure today, the better are America's chances."

**THINGS TO WATCH FOR** — Various glass replacements for tin and steel. Besides glass jars in lieu of tin cans, there are "tempered" plate glass (almost as strong as steel) which can be given an enameled surface, for use in refrigerator wall panels, cabinets, kitchen sink units, etc. glass door knobs that look like brass, bronze or chromium because given one of those finishes on the inside; and glass jars and boxes for paper clips, thumb tacks and rubber bands.

## MOTHER OF MRS. B. E. LARSON CALLED BY DEATH AT OAKLAND HOME

High school principal and Mrs. B. E. Larson were called to the Bay District during the weekend by the receipt of word of the death of Mrs. Larson's mother, Mrs. Clarence A. Dobell. Mrs. Dobell, who had been ill the past year, passed away on Saturday.

The funeral services are to be held Tuesday morning at Oakland. Native of Iowa, Mrs. Dobell came west in 1906 and for about twenty years made her home in Oregon where her late husband was prominently identified with Oregon University.

Following his death, she moved to Oakland in 1926 and had since made her home there. In addition to the daughter in Placerville, two sons and two other daughters survive her.

## SAMUEL B. DICKINSON, PAINTER, DIED ON MONDAY

Samuel B. (Dick) Dickinson, 63, for more than twenty-five years a painter in Placerville and vicinity, died Monday morning at a local hospital.

Dickinson was a native of near Nashville, Tenn., and left home at an early age. He had been in and near Placerville since 1915.

Although he had not been active for a number of years, it was only during the past month that he had shown signs of not feeling well and about a week before his passing, friends had persuaded him to go to the hospital.

There are no known relatives.

**ATTENTION, NATIVE SONS** — Members of Placerville Parlor No. 9, N. S. G. W., will meet at their hall at 1:30 o'clock Tuesday to conduct funeral services at Memory Chapel at 2 o'clock for our late brother, William H. Albright. By order of

WM. J. DIXON, Pres.  
Harold W. Duden, Rec. Sec.

## WEDNESDAY NIGHT

In the Timber eagle, the Flying A took three from Caldor, with Tom McGrath turning in a 214. The Rainiers captured the first two in their set with the Beacons. Standard Oil, with Lee Johnson rolling a 211, won the first two in their set with Placerville Lumber.

## THURSDAY RESULTS

The Sanatorium took three, painlessly, from the Raffles five and Lewis & Lewis took two from the Ruffins while the Dispicos made it three in a row over Murrys and Pauline.

## FRIDAY RESULTS

Sid's Honeyes took two in their set with the American Legion and the Eagles spread their wings and sailed away from the Baers, despite their 125-pin handicap. The Leo Burgers dropped the first one but won the last two from Murrys and H. Westphal had a 208.

## ARMY MAY BE INTERESTED IN USE OF SNOWLINE CCC CAMP

A rather persistent rumor was abroad Monday to the effect that some use of the Snowline CCC camp site is being considered by the military.

Wallace M. Ripley, chamber of commerce secretary, admitted that the chamber of commerce several weeks ago sent Army officials a report on the Snowline site and also on the Mosquito site, suggesting suitability as recreational or convalescent camps.

Mr. Ripley said that if there is anything definite to announce, it would be likely to be reported from Army circles or through the Forest Service, which administers the camp sites.

Forest Supervisor Edwin F. Smith was not available Monday, but during the latter part of last week, when interviewed on the same question said there was, at that time, nothing to report.

## Placerville Couple Tell Of Nevada Marriage

Mr. and Mrs. Claude T. Bryan, of Placerville, are announcing the recent marriage of their daughter, Miss Dorothy Marie Bryan, and Zack Bailey, of Placerville, at Carson City.

The service was witnessed by the bridegroom's father, John Bailey, and his sister, Mrs. Mildred Jones. Mrs. Bailey is a graduate of the county high school and has been active in Placerville Assembly. Order of the Rainbow. Her husband is employed with the Pino Vista Dairy. They will make their home in Placerville.

## Engagement Announced At Riverside Party

Mrs. Alice Howe and daughter, Miss Eddis, recently returned from a visit in the southern part of the state. Their visit included a social occasion at the home of Mrs. Jean Mackey, at Riverside, where Mrs. Howe announced the engagement of her daughter and Private Robert Sheldon, who is a brother of Mrs. Mackey. Among those who attended the affair were the bride-elect and her mother, the Misses Janice Benson, Betty Lou Evans and Mrs. Loreen Butts.

## FIREMEN'S BALL SATURDAY IS SUCCESS; FINANCES ARE INCOMPLETE

The 89th annual dance of the Placerville fire department was held Saturday evening at the I. O. O. F. hall and was a social and probably a financial success.

Frank Fausel, secretary of the department, said that it will probably be several days before all accounts can be tallied.

In this connection he asked the co-operation of patrons of the dance and urged that those to whom tickets were mailed should make their remittances at the earliest possible date.

Frank Dames and his orchestra played for dancing.

Mr. and Mrs. Louie Lawrence Smith, of Shingle, are the parents of a son, named for his father, born on February 19.

## CARD OF THANKS

We wish by this means publicly to express thanks to the officers and our other friends who assisted us Saturday morning in locating our small grandson, who had wandered away from home.

MR. AND MRS. PARK STARK.

## RADIO Repairing

Don't let your set stand idle because there's something wrong and you don't know what—Let us fix it.

**KING'S RADIO SERVICE**  
448½ Main St.

A single engine airplane that can power dive at a speed exceeding 11 miles a minute has been perfected by the American aviation industry and soon will be coming off the assembly lines in mass production quantities. The world's fastest plane in its class, this fighter is among the many new inventions that will give America superiority in the air over every other country in the world.

In addition to its almost incredible speed in power dives, this latest offshoot of the "Wright brothers' folly" can skim along at 400 miles per hour—more than 6½ miles per minute—in level flight.

Information released by the government about it reveals that it has a 2,000 horsepower engine and a

four-bladed, twelve foot propeller, and weighs 13,500 pounds. It is 32 feet 8 inches long, has a wing spread of 41 feet and is 13 feet high.

While the exact fire power of the plane is a military secret, it was indicated that it is heavily armored with both large and small caliber guns, making it a powerful weapon for strong defensive and offensive action.

The new fighter, fast and powerful as it is, is only one of several different types of aircraft now in production in the United States for the armed forces of the United Nations. All types of planes are being manufactured in increasing quantities and now that the automobile industry is getting set to take over a bigger share of the manufacturing job, output will shoot up rapidly.

The organized collection of scrap metal, rubber and paper is functioning smoothly in nearly every rural community in the country. State and local war boards have set up collection points, but most of the actual collecting is done voluntarily by every individual farm family.

War production officials have repeatedly urged the careful saving of all essential metal, rubber, and paper because of the importance of those materials in the war effort. So now farm families all over the country include a stop at the scrap collection office in their regular trips to town.

Some states have had their collection plans in operation for some time and report a gradual slowing down of activity. They report a land office rush the first few weeks when folks rounded up old tires around the yard, metal in the junk pile and old papers and magazines in the attic. But after the accumulations of months and years were cleared out, the collection business has slowed some.

Farm people are being urged to continue the work of saving essential materials, however. Every bit of useful material should be saved and turned back through the organized collection channels.

Farm officials believe an important part of increased farm crop production this year can come from the careful selection of good seed of the best adapted varieties. Experiments show that a very appreciable increase in yield can be obtained by having top quality seed of the best kind for the area in which it is grown.

Spring planting of grain crops is already under way in some sections of the country and the work will continue right through until the early summer months. In view of the need for increased production, many farmers may be tempted to try new varieties of untried seed in hope that they'll get better yields than usual.

Farm leaders have warned against using new, untested varieties, however. They point out that even though a new kind of seed may

## Attachment Undertaken By Sacramento Agency

The Merchants' Service Bureau, of Sacramento, has brought suit undertaking an attachment in Superior Court against Claude Long and Isabell Long in the amount of \$1,535.15.

The amount mentioned is a principal sum of several accounts assigned to the agency including \$162.37, Clifton and Company; \$177.90, George's Food Center; \$94.33, Cannon Chevrolet Company; \$240.81, M. T. Kelly; \$17.76, Orelli Electric Company; and \$928.88, Camino Truck Service.

## At Least 91 Inches Of Snow On Summit

Monday being a holiday, we were unable to learn the extent of the weekend precipitation.

Following are the snow depths reported Monday morning as of Saturday morning, in the snow sports area. The figures are supplied by the state Division of Highways: Strawberry, 36 inches; Twin Bridges 56 inches; Summit 91 inches; Meyers 48 inches; "Y" at the south end of Lake Tahoe, 26 inches, and over at Stateline, 21 inches.

In England they consult the astrologers for the shape of things to come; in the United States we consult correspondents. That is what Louis Fischer, foreign correspondent and author says in his talks on the west coast. Mr. Fischer was in Europe last summer and fall and has a new slant on the war situation to present to an anxious public.

On June 22nd, 1941, Germany attacked Russia which had been a neutral nation; on Dec. 2nd Japan attacked the United States which had also been neutral. Why did the Axis powers add to their enemies? The answer to that question, says Mr. Fischer, is the key to the course and strategy of the war.

Last summer when Mr. Fischer was in England, he was given the "Hess mystery" as an assignment. Rudolph Hess was silent for 3 weeks after landing. Then he told England that Germany would invade Russia and he made peace proposals to the British. They were not needed as we know.

The reason for German success is obvious enough when we remember that Germany was prepared with all that was new in the production of tanks and airplanes. She was mechanized and motorized to the nth degree. But after 1919 Britain just stuck in the mud. After Dunkirk, believe it or not the British were protected by fewer than 12,000 armed soldiers. Hitler made his first mistake by not striking them.

Why did Hitler invade Russia instead of England? Because he could not establish air superiority. He would have had to control the air for days and nights but the RAF was too powerful for him. Hitler really hoped to make a charge for Russia and then negotiate a peace with England. But his plan did not carry. That is the reason that Japan attacked the United States. The RAF and Russia stopped Hitler — so Japan came in the war not like Mussolini who rushed gallantly to the aid of the Victor. However, don't think for a minute that Japan is in the war to pull Germany's chestnuts out of the fire, says Mr. Fischer, she has her own chestnuts to look after.

What lies ahead? Mr. Fischer admits that no one can really prophesy but he tries to think with his brain rather than with his wishbone and look at what might happen. It is possible, he says, that in March Hitler may invade Turkey in order to outflank the Russian Caucasus, move into Persia and cut off the Russian supply line. From

Robert Reeder was up from Sacramento Saturday to pick up some of the loose ends on the recent annual "Fight Infantile Paralysis" campaign. He expects to have a report on the campaign ready at an early date.

Fred Giles was a caller from Plymouth on Monday.

Robert Barker was home from Sacramento for the weekend.

Miss Edythe Purcell was a member of a recent ski party at the Challenger Inn, near Portland.

Miss Lulu Cook was up from Sacramento to spend the Washington's Birthday weekend.

Fred Gee was up from Alameda for the Washington's birthday weekend.

School supply orders for the new school year were dispatched to teachers and boards of trustees in the county during the weekend by County Superintendent K. W. McCoy.

John Buck, of the forest service staff, is spending several days this week at San Francisco, on business.

there he may go on to Baku where the richest oil fields in the world lie and then meet Japan in India. To date Russia has recaptured about one-fifth of the 500,000 square miles of territory which Hitler occupies. Russia has lost one-third of its munitions factories to Hitler. So far it has made the greatest contribution to Hitler's defeat. If Hitler mounts a smashing offensive it will go hard with Russia especially if Japan attacks Siberia.

While Germany is stronger than Japan, we may first defeat Germany because we have two bases from which to operate — England and Russia. Against Japan we have no bases.

The fall of France was a greater disaster than the fall of Singapore but Hitler is no nearer to winning the war. To be sure Japan's swift victories depress us but let us remember that so far Japan has only employed from 1500 to 3,000 planes. This year the US expects to produce 45,000 combat planes. This is not said to induce complacency—goodness knows that there is too much of that already. There is a long tough struggle still ahead. It is going to cost not only money but lives to win but the United States will be first in war and first in peace when the whole fate of humanity will be in our hands.

Mr. Fischer's new book "Dawn of Victory" is just off the press. We recommend it for those who want to look ahead.

## COUNTY BUNCO SUSPECT JAILED BY POLICE AT BAY CITY

Marvin O'Malley is "in again." San Francisco police picked him up one day last week after a brief footrace down Post Street, and booked him at the city jail as a bunco suspect.

O'Malley might be liable to the charge for El Dorado County records indicate that it was he who was convicted of similar activity here.

Sheriff George M. Smith reports O'Malley was let out of prison about two years ago and that for some time past he has been wanted in Seattle and also in Los Angeles on bunco charges.

## FARM LABOR, MACHINE SHOP POOL HIGHLIGHTS FOR COMMERCE CHAMBER

(Continued from Page One)

brings results over a continuing long period and that to discontinue the program at the present time would cause us to lose a great deal of valuable ground gained.

Garage and Service Stations, by C. S. Collins, chairman. A survey will be made at once to determine what machinery, equipment, and skilled labor is available in the county for the purpose of forming a pool of such facilities in order to attempt to secure some governmental contracts. A similar expression was made by Mr. Robert Hook as spokesman for the various manufacturing groups.

Under the head of new business, a resolution was offered relative to the matter of internment for enemy aliens on which there was a general discussion taking into account the possibility that some, at least, of the enemy aliens might be able to serve in relieving the probable labor shortage in various industries.

Although the motion as originally offered had proposed that all enemy aliens be removed from California to inland concentration camps, this proposal was modified to read that "all Japanese and enemy aliens" be placed in concentration camps.

The meeting included reports by the several standing committees of the chamber and the members had opportunity to read and discuss a Placerville police department courtesy announcement which has been designed by Mayor Charles Molinari for distribution to visiting motorists intended to convey to them an expression of the city's hospitality.

The twenty-four new memberships of the chamber are as follows:

Gene Morrison, Lakeland Village; W. C. Henningsen, Chris Henningsen & Sons; C. E. Pollock, Pollock Mill Company; Donald W. Robinson, Robinson's Pharmacy; George K. Fausel, George's Food Center; Roy H. Scheiber, Roy's Place; Anna Hick, Archie's Market; Alice Howe, Howe's Market; T. C. Garrick, Gasoline Distributor; Margaret Atkins, The M. O'Keefe Company; J. D. King, Twin Bridges Resort; E. G. Galt, Glen Alpine Resort; Dr. Charles Soracco, Physician and Surgeon; Calvin Scott, Mgr., Pacific Fruit Exchange; Frank Globin, Globin's Al Tahoe; Mrs. Marguerite Morgan, Morgan's Pharmacy; Carl E. Sirard, Sirard's Cabins; A. W. Lampton, Tahoe Produce Company; Chris C. Orelli, Electrical Contractor; Albert Simon, Dry Goods Store; Antonio Bestonco, Locust Cafe; Roger Douvres, American Laundry.

## MR. AND MRS. M. T. KELLY MADE GRANDPARENTS ON THURSDAY

Dr. and Mrs. Marshall Kelly, of Jefferson City, Missouri, are the parents of a daughter, born at that place on last Thursday morning.

The little lady is the first grandchild of Mr. and Mrs. M. T. Kelly, of Placerville, to whom her arrival was announced in a telephone call from the new father.

"Hello—dad?" said Marshall as the connection was established. Since Mr. Kelly is the Dad Advisor of the De Molay chapter, it was a few minutes before he realized that the telephone call was from his own son.

"This is brother," said Marshall, and then he reported the news, an eight-pound girl.

## Strawberry Lift Put In Service

Dedication Held Sunday Morning In Presence Of Large Ski Gathering

The new Constam ski lift at the Strawberry Lodge Ski Hut was dedicated Sunday morning and put into immediate service and found high favor with the largest gathering of winter sports fans of the season in the Sayles Flat ski area.

The brief program was under the supervision of the El Dorado County Chamber of Commerce and President John A. Raffetto, Swift Berry, chairman of the publicity committee; and Secretary Wallace Ripley, spoke briefly.

The ski lift, one of three in operation in the west, and the other two being near Denver and near Ogden, Utah, "worked like a charm" while E. C. Constam, designer and patentee, supervised its operation.

The day was one of the best of the season in winter sports along U. S. Route 50 and observers noted that 175 cars were parked at the Strawberry Lodge ski hut, while other play areas from Strawberry through Twin Bridges, Phillips and at Echo Portals were the scenes for devotees.

The Strawberry Hill, particularly, attracted a number of winter sports devotees who are well beyond the "amateur" stage, and their performances added to the general interest in the sport of the day. Skiing conditions were described as "ideal."

## NEWSPAPER ADVERTISING CREDITED WITH YIELD OF SALES GAIN

"Newspaper advertising has again proved to be a potent factor in increasing sales of Acme Beer," says Karl F. Schuster, President of Acme Breweries, in announcing that his company's two breweries in San Francisco and Los Angeles accounted for a record-shattering 24.74 per cent of all beer sold by California breweries during 1941.

At the beginning of 1941, we set aside for newspaper advertising a larger proportion of our appropriation than in any previous year in our history," Schuster stated. "We did this in the belief that important world developments would make newspapers a more vital force in American life than ever before. Our great sales gain justified our decision. While the rest of the California breweries showed an increase in sales of slightly less than one-half of one per cent, Acme's sales jumped nearly 24 per cent, according to figures released by the State Board of Equalization. Competing with 19 other breweries, putting out more than 190 brands, Acme, with one brand only, had a greater increase in gallonage than that of all others combined."

An important factor in the success of Acme's newspaper advertising, Schuster believes, is the manner in which the appropriation is determined. "Each year," he says, "we plan our advertising on what we expect our sales to be for that year, not on what they were the last year. Our experience has shown that greatly increased advertising and greatly increased sales expectancy go hand in hand, which is why Acme's sales margin over the rest of the field has widened year after year."

## TEMPORARY EXPLOSIVES LICENSES EXPIRE ON MARCH 1

The attention of all residents of the county who have the responsibility for the storage or handling of explosives is directed to the circumstance that their special licenses to handle such explosives expires on March 1, 1942.

County Clerk Arthur J. Koletzke has been appointed licensing agent for the Bureau of Mines of the Department of Interior and applications for renewals of licenses may be filed at his office.

Swift Berry, of Camino, has recently returned from a business trip to Washington, D. C.

## EVACUATION OF ENEMY ALIENS, PARTICULARLY THE JAPANESE, IS HELD LONG OVERDUE BY CALIFORNIA EDITORS

BY J. F. McLAUGHLIN

United Press Staff Correspondent

Removal of enemy aliens—particularly the Japanese—from west coast defense areas certainly is desirable and long overdue. In the opinion of California editors, Orders for such action, it was agreed, indicate the government has learned the lessons taught in Hawaii and the Philippines.

"This order," said the Ontario Daily Report, "has been too long delayed. Why we should be so dilatory is a mystery. Now it should be up to our powers—that be to find productive work for these enemy aliens. They should be made to help produce food for the United States during their internment, of enforced sojourn away from their homes, at our expense. The Japanese are experienced gardeners. They can be made to pay their way, and more, if proper supervision is provided."

"The task of removing the enemy aliens to a place where they cannot do harm," agrees the Stockton Record, "is a magnitudinous one. But the job must be done, and thoroughly. We can rest assured that in Japan, Germany and Italy all enemy aliens were removed from military areas long ago. Authorities in these countries, counting on their agents in the United States to do their worst, probably think that Uncle Sam is a slow-moving, democratically inefficient sap because he did not act against aliens long ere this."

Undoubtedly, concedes the Monterey Peninsula Herald, the evacuation order will "work hardship upon many loyal and trustworthy people," though "that is merely a regrettable but unavoidable result of the war which has been forced upon us by the axis powers. They will have an additional reason for appreciating the freedom of thought and action which they enjoyed in the United States until their own countries caused them to be deprived of it."

While the control of aliens is but half the problem, according to the Orange Daily News, "because the actions of all the people of Japanese origin cannot be guaranteed, it appears that the entire problem is beginning to be understood in Washington. The coast delegation in Congress has outlined a program of control and is insisting that appropriate action be taken. It is strange that, following Pearl Harbor, there has been little concern and so much delay in meeting a very present danger."

"The problem of handling enemy aliens, in wartime," remarks the Merced Sun-Star, "is a difficult one. The vast majority may be harmless. A country at war cannot always afford the risk of distinguishing this majority from the subversive minority looking for opportunities to sabotage. One general plan to control all may have to be evolved. This may work a hardship on the peaceful which most of them could have avoided by applying for citizenship years ago. It is the chance they have taken of becoming enemy aliens."

Expressing sympathy for the loyal aliens affected by the order, the

Alameda Times-Star add: "We can only extend our sympathy and remind them that the unusual move has been taken only because it is in the best interests of the United States we all love. These loyal neighbors, though inconvenienced will, we know, bear that inconvenience with good grace because they recognize the necessity for the move."

"The problem," said the Hollywood Citizens-News, "is not one that can be settled by the snap of the

Mary Strickland spent the weekend visiting friends at San Francisco.

Mr. and Mrs. C. C. Tidd were visitors in the county seat from the Springville section.

Ralph Cosens and son were cers Saturday from Hank's change.

"finger," pointing out federal officials are not unaware of the treachery of Japanese at Pearl Harbor and the Philippines. "They are endeavoring to meet the problem, adds the Citizen-News, "with a program of action that can be defended against all attacks and that will not react to the injury of a nation or any of its citizens."

# Announcing Pontiac PRESCRIBED SERVICE

LOW COST

A modern, low-cost maintenance plan with 6 big advantages

- 1 YOU SAVE MONEY
- 2 YOU ENJOY PROMPT, COOPERATIVE ATTENTION
- 3 YOUR CAR IS EXAMINED FREE BY A TRAINED M. D. (MOTOR DOCTOR)
- 4 HE PRESCRIBES ONLY NECESSARY OPERATIONS
- 5 YOU PAY ONLY FOR WHAT YOU NEED WHEN YOU NEED IT
- 6 YOUR CAR'S LIFE IS LENGTHENED AT MINIMUM COST

Check your Pontiac dealer for full details  
Prescribed Service may be financed on GMAC's convenient budget plan.

**VINCENT WALDRON**  
Main and Bedford  
Placerville, Calif.

# WANTED Fighting Dollars!

## Make Every Pay Day... BOND DAY!

TODAY, Americans are dying so that America, your free America, can live!  
Today, the men in our Army and Navy urgently need more planes, more tanks, more guns! More than our enemies have, better than our enemies have, if we're going to smash our way to Victory!

We've got to get them. We will get them. But only if every man, woman, and child in America helps! And helps voluntarily, regularly, in the American Way—the Defense Bond way—every pay day.

Every dime and dollar you can lend your Government is needed and needed now!

**You Get a \$25 U. S. Bond for Only \$18.75**  
Facts About Defense Bonds (Series E)

How much do they cost?	You LEND Uncle Sam	You GET BACK
\$18.75	\$18.75	\$25.00
\$37.50	\$37.50	\$50.00
\$56.25	\$56.25	\$75.00
\$75.00	\$75.00	\$100.00
\$112.50	\$112.50	\$150.00
\$150.00	\$150.00	\$200.00
\$225.00	\$225.00	\$300.00
\$375.00	\$375.00	\$500.00
\$750.00	\$750.00	\$1,000.00

When is maturity? Ten years, but you can cash the Bonds at any time after 60 days from issue date. Naturally, the longer you hold the Bonds, up to 10 years, the more money you'll get back. But you'll never get less than you put in.

What's the interest rate? When held to maturity, the Bonds yield 2.9 percent per year on your investment, compounded semiannually—you get back \$4 for every \$3. This is guaranteed by the United States Government.

When should I buy a Bond? Start now: buy regularly. If your company has a Pay-roll Savings Plan, take advantage of it. NOW INVEST IN SAFETY—WITH PERFECT SAFETY.

## BONDS... OR BONDAGE?

Make This Your Answer!

**JOIN THE PAY-ROLL SAVINGS PLAN**  
EMPLOYEES! Under the voluntary Pay-roll Savings Plan (approved by organized labor) you simply save a part of your pay every pay day toward the purchase of Defense Bonds. Tell your foreman or department head you want to ENROLL NOW!

EMPLOYERS! Do your part. If you haven't already offered your workers a Pay-roll Savings Plan, write or wire Treasury Department, Pay-roll Savings Section, 709 Twelfth Street N.W., Washington, D. C., for full particulars.
